

The Data Quality Scanner (DQS): **The only automated credit reporting compliance and benchmarking solution partnered with a credit bureau.** Comprehensively assess the accuracy of Metro 2[®] data against a ruleset of 380+ rules, enabling a proactive data-driven approach to finding, prioritizing, and fixing account-level issues.

Furnishers have been able to minimize credit bureau discrepancies and reduce dispute rates by 10-30% by using DQS to improve their furnishing accuracy. Based on our latest research and analysis, we have seen **dispute rates are up to 10x higher for accounts with dispute-correlated discrepancies.**

Data furnishers play a critical role in today's credit ecosystem. As a trusted steward of consumer data, Equifax is committed to investing in practices and partnerships that help us better support customers in ensuring accurate data reporting. Joining forces with Bridgeforce supports this commitment by helping furnishers referred from Equifax enhance the quality of their data, resulting in improved accuracy, lower dispute rates and reduced compliance risk.

Robert Eison, Chief Operating Officer
for Equifax United States Information Solutions (USIS)

Equifax is committed to maintaining the highest standards for data accuracy and compliance. Together, Equifax and Bridgeforce offer a best-in-class credit reporting compliance and disputes management solution, with the ability to send data directly to DQS, providing a streamlined implementation option, and access to additional cloud-based offerings.

Trusted Security & Performance

powered by 

PCI-DSS Certified

Our cloud environment is hosted by AWS, PCI-DSS certified, and has passed an annual SOC 2 Type 2 audit. Our network architecture uses the AWS Well-Architected Framework to provide our clients with a secure, resilient, high-performing, and efficient infrastructure to support their data service needs.

Metro 2[®] File Delivery via Equifax

Through our partnership with Equifax, Equifax can now securely send your data to DQS on your behalf, providing a streamlined implementation option. This easily allows our partners to bypass any technical effort required to send the files, limiting any effort to simply enabling their users to download results.

DQS clients find this is a way to start using DQS quickly and easily while working to implement automated, direct file transfers with our AWS environment for longer-term usage.

DQS Features and Details

Feature	DQS Details
Number of Rules	380+
Usage Frequency	Unlimited
Metro 2 File Delivery	From Client or Equifax
Control Type	Preventive & Detective
Deployment Option	Cloud or On-Premise
Separate Testing Environment	Included
License Term	1 or 3 Years
Peer Benchmarking	Free for License Term

We could not believe how easy it was to get started using Data Quality Scanner. With other vendors we're used to drawn out projects with many hurdles and unexpected challenges. That has not been the case here, thank you so much!
